ABHISHEK SINGH

Cloud Sales Engineer | Technical Pre-Sales Consultant

Ghaziabad, Uttar Pradesh, India • +91 9935953563 • 7080dhiru@gmail.com

Portfolio: 7080dhiru-star.github.io/cloud-engineer-portfolio • LinkedIn: linkedin.com/in/abhishek-singh-4489ab265 • GitHub: github.com/7080dhiru-star

PROFESSIONAL SUMMARY

Client-focused **Cloud Sales Engineer & Pre-Sales Consultant** with hands-on production experience in multi-cloud architecture (**AWS, GCP**), enterprise **VMware ESXi** virtualization, and IT infrastructure. Proven track record of translating complex technical capabilities into clear business value, conducting client discovery sessions, delivering tailored technical demos, and formulating cost-benefit proposals. Successfully sustained **99.9% uptime SLAs**, demonstrated **20% cost optimization** opportunities, and designed Proofs of Concept (PoCs) that accelerated software deployment cycles by **20%**. Certified in **Oracle Cloud Infrastructure (2025 Architect Associate)** and **Fortinet Cybersecurity**.

TECHNICAL & PRE-SALES SKILLS

Pre-Sales & Solution Consulting: Technical Product Demos, Client Discovery & Requirement Scoping, Proof of Concept (PoC) Design, RFP/RFI Response Support, Technical Objection Handling, Value Engineering, ROI & TCO Business Case Development

Cloud Platforms & Architecture: Amazon Web Services (AWS - EC2, S3, VPC, IAM, RDS), Google Cloud Platform (GCP), AlloyDB, Oracle Cloud (OCI), Private & Hybrid Cloud Architectures

Virtualization & Hypervisors: VMware ESXi, Hypervisor Management, VM Provisioning, Capacity Planning, Datastores, High Availability Architecture

Operating Systems & Server Admin: Ubuntu Linux, Enterprise Linux Administration, Windows Server 2016/2019/2022, Plesk Control Panel

Datacenter & Enterprise Hardware: Datacenter Operations, Server Deployments, RAID Configurations, Rack Installations, Enterprise Hardware Maintenance

Networking & Security Protocols: DNS, DHCP, VPN, TCP/IP, Firewall Policy Configuration, Network Troubleshooting, Secure Tunneling, Least-Privilege IAM Policies, Cybersecurity Frameworks

Cloud Economics & Operations: 99.9% SLA Management, Cloud Cost Rightsizing & Resource Optimization, Proactive Monitoring, Disaster Recovery (DR), Business Continuity Planning

DevOps & Scripting: CI/CD Pipelines, Infrastructure Automation, Python, Java, SQL, Shell Scripting Basics

PROFESSIONAL EXPERIENCE

PURVACO TECHNOLOGY PVT. LTD. — **Ghaziabad, India**

Cloud Engineer (Technical Pre-Sales & Client Solutions) — **September 2025 – Present**

- Partner with business development teams and client stakeholders to architect multi-cloud production workloads across **AWS (EC2, S3, VPC, RDS, IAM)** and **GCP**, guaranteeing client-facing **99.9% uptime SLAs**.
- Deliver technical discovery calls and solution walkthroughs for enterprise **VMware ESXi virtualization** infrastructure, advising clients on hypervisor management, capacity planning, and resource allocation.
- Design and present automated **CI/CD deployment pipelines** as technical Proofs of Concept (PoCs), demonstrating a **20% reduction in deployment turnaround time** to accelerate customer onboarding.
- Conduct comprehensive infrastructure audits and propose **cloud cost optimization** roadmaps, rightsizing compute/storage workloads to demonstrate measurable ROI and reduce client cloud expenditures.
- Address client security and compliance requirements during technical assessments, articulating **least-privilege IAM policies**, zero-trust principles, and firewall hardening across VPN and TCP/IP interfaces.
- Perform end-to-end administration and technical support across **Ubuntu Linux** and **Windows Server** environments, ensuring seamless operational readiness for customer deployments.
- Advise enterprise prospects on **Disaster Recovery (DR)** strategies and automated backup protocols, providing peace of mind by safeguarding business-critical infrastructure against downtime.
- Execute enterprise datacenter operations including server deployments, hardware rack installations, and **RAID array** setups, ensuring physical infrastructure meets client performance standards.

TECHNICAL PROJECTS & DEMONSTRATION WORK

Women Safety Analytics — AI & Threat Detection Platform *Python, Machine Learning, Pandas, Scikit-learn, Client Demonstration*

- Delivered live technical pitches and solution demonstrations to expert panels, winning innovation awards at **Smart India Hackathon (SIH)** and **Hackwith Uttarakhand** for functional execution and real-world applicability.
- Engineered an anomaly detection and classification platform, effectively translating complex data telemetry into clear, actionable safety insights for non-technical stakeholders.
- Collaborated directly with the **Madadgar Foundation** to conduct stakeholder requirement gathering, deploying **5+ functional social-impact software prototypes** solving real-world challenges.

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified Architect Associate** — Oracle — 2025
- **Fortinet Certified Associate in Cybersecurity** (Credential ID: 5144971646AS) — Fortinet — 2025
- **Google Cybersecurity Certificate** — Google — 2025
- **AlloyDB Resource Management** — Google Cloud (GCP) — 2025
- **Open Source LLM Chatbot Development** — Technical Specialization — 2025

EDUCATION

Bachelor of Technology in Computer Science and Engineering — Nitra Technical Campus, Ghaziabad, UP — 2022 – 2026
